Data Protection - Customer Information Notice:

The Common Reporting Standard (CRS), formally referred to as the Standard for Automatic Exchange of Financial Account Information, is an information standard for the automatic exchange of information (AEoI), developed in the context of the Organisation for Economic Co-operation and Development (OECD).

The standard requires that Financial Institutions in participating jurisdictions gather certain information from account holders(and, in particular situations, also collect information in relation to relevant Controlling Persons of such account holders).

Under CRS account holder information (and, in particular situations, information in relation to relevant Controlling Persons of such account holders) is to be reported to the relevant tax authority where the account is held, which, if a different country to that in which the account holder resides, will be shared with the relevant tax authority of the account holder's resident country, if that is a CRS-participating jurisdiction.

Information that may be reported includes name, address, date of birth, place of birth, account balance, any payments including redemption and dividend/interest payments, Tax Residency (ies) and TIN(s).

Further information is available on the OECD website: http://oecd.org/tax/automatic-exchange/
